Respected Sir,

Our University has prescribed **Horizons: A Text Book for College Students** for the students of B Com III [SEM V & VI] as a text book for Compulsory English. No doubt the text book gives good and detailed information about the life and career of the entrepreneurs. But as per the feedback received from the students of the class, they suggested that there should be life and career stories of Indian entrepreneurs especially who belonged to down-to-earth family or ground level family. If you make inclusion of such entrepreneurs in the present syllabus, it will be more inspirational, motivating and encouraging to the students.

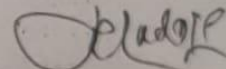

Therefore I kindly request you to consider my suggestion positively

Thanks
