10. Evaluation Process and Reforms

In the beginning of each semester, the students are introduced with the prescribed syllabus in detail by making them known with its scope. The syllabus pattern, weightage of marks and importance of some major topics from examination point of view have been discussed with them. The unit tests, home assignments, seminar, projects, interview and viva-voce are conducted as a part of internal evaluation. Such continuous evaluation allows the teachers to assess the students, track their progress and identify slow and advanced learners.

The students' laboratory performance is examined by conducting internal laboratory tests. Before the commencement of the university examination, preparatory examinations and question paper solving sessions are conducted to boost the students' confidence. Through text books, reference books, encyclopedia and N-list, Students get chance to improve themselves by means of such this continuous evaluation system before appearing for the university examinations.

In present scenario of Covid-19, the faculty try to reach at the doorstep of students by using e-tools also such as Google Class room, WhatsApp, Google form, YouTube, Zoom App, Google meet etc. The study material and questions related to the subject are posted on above platform. Students' also raised their queries and that are answered by the faculty.

Mechanism to deal with internal examination

To deal with internal examination grievances, there is a separate mechanism in our college. The internal examination grievances of the college students are either at the college or at the University level. The college level grievances are redressed by the Internal Examination Committee, the concerned heads of the departments. The university level grievances are redressed by examination coordinator under the guidance of the Principal.

If any student is unable to appear for the internal examination due to illness, participation in co-curricular, extra-curricular activities or genuine reason, there-examination is conducted for such students. After the evaluation of the answer books, marks are displayed on the notice board. If there is any grievance regarding the internal examinations, it is redressed positively in time.

The follow up of university level grievances of internal examination is actively taken by examination coordinator of the college, so that such student may not suffer from the academic loss.

In this session 2020-2021 even and odd semesters examinations are conducted online due to covid-19 situation, therefore all the staff members have taken the keen efforts in minimizing the university level grievances of not only at internal but also university level examination. Due to online examination the grievances of the students are found very negligible.

Soft Skill Development Workshop

12th March to 16th March 2023

Venue: Seminar Hall M.M. College, Darwha Time: 12.00 pm

Introduction:

Soft skills are non-technical skills that describe how you work and interact with others. Unlike hard skills, they're not necessarily something you'll learn in a course, like data analytics or programming. Instead, they reflect your communication style, work ethic, and work style. Soft skills apply to all kinds of jobs and careers. For example, a professor and an investment manager can both be great communicators and have exceptional leadership skills, although how those skills translate into their professions can look quite different. No matter what field you're interested in, these skills won't just come in handy — they'll be integral to your success at a company. We all have soft skills because they are part of who we are," Sabrina Cortes, resume writer, says. "Top soft skills are teamwork, attention to detail, time management, organization, verbal and written communication, leadership, emotional intelligence, adaptability/flexibility, problem-solving/conflict resolution, and interpersonal skills .. Unfortunately, all too often, these personality traits are overlooked. But they play a role in each job out there." Soft skills include attributes and personality traits that help employees interact with others and succeed in the workplace. Examples of soft skills include the ability to communicate with prospective clients, mentor your co-workers, lead a team, negotiate a contract, follow instructions, and get a job done on time. It helps you with the opportunities in career advancement. You become more aware at the personal level to connect with others more easily.
