"Drug, Disease and Development"**  
**9-10 December, 2020**

**About College**  
Mungasaji Maharaj Mahavidyalaya Darwaha established in 1971, the society is well known with the name of Vidya Prasarak Mandal, Darwaha is the first educational institution in Higher education of this region.

The college is affiliated to Sant Gadge Baba Amravati University, Amravati, situated in its own campus on the Yavatmal road. The college offers UG courses in Arts, Commerce and Science under one roof. The college has a wide range of facilities like M.Com, M.A. Marathi, Political Science, Sociology, History, Home Economics, M.Sc. Chemistry, Mathematics and Physics to fulfil the needs of students for post graduation from these nine areas.

Our college is now recognised as Research Centre for Marathi, Political Science, Mathematics and English. Six faculty members are working as Ph.D. Supervisors in different subjects. A sufficient number of Faculty members are serving the college for the welfare of Students. Our College is reaccredited with Grade 'B' by NAAC.

**About the Conference**  
The design, development and discovery of drug candidate are a challenging task. The pharmaceutical companies, biotechnological industries along with the academicians are collaborating to find a cure to the new diseases and proposing a better solution to existing one. There has always been and continuing need to discover new chemical entities with diverse pharmacophore properties. The structures are a starting point towards discovery. Drug molecule is like a duplicate key to jam the lock like an inhibitor or open the lock like an activator. So, the drug molecule is an inhibitor or an activator. Chemistry is the central science and plays the most critical role in the drug development process.

So taking into account the interdisciplinary nature of chemical science, we have organised an **International Interdisciplinary "Virtual Conference on Drug, Disease and Development"**. The conference will explore the different research and development in the area of drug, disease and development.

**The objectives of the conference**

- To provide an opportunity for the participants throughout the world to share their rich experience and ideas with the other participants expected to join from different parts of the globe.
- The conference would attempt to identify, document and explore the various factors responsible for recent trends in the field of Drug Development.
- To provide an opportunity to enrich the young mind through the lectures by eminent speakers from a different research background.
- This conference anticipates active participation from research and development labs, academia and technology development group of industries.
